Our plans for the fall are still very uncertain at this stage. With the unknown and variable trajectory of both virus transmission and corresponding restrictions, long range planning is challenging to say the least. We do know that some forms of restrictions will remain as we progress through various phases of the Re-Open Saskatchewan Plan.

The provincial education sector Response Planning Team, in consultation with the Saskatchewan Health Authority and the Chief Medical Health Officer, are already planning for the fall. As always, the overriding principle for all decisions will be safety and health of students and staff. We will continue to keep you posted as soon as we have information. Have a great summer everyone!

Please call the school if you have any questions or concerns! We miss you all!

Pre-Registration for the 2020-2021 School Year

2020-2021 school year planning continues even in these times of uncertainty. Please note there is an electronic pre-registration survey we are requesting each family complete. Please follow the link: PRE-REGISTRATION.

This information assists us with planning and class groupings for the new school year. Classroom teachers usually complete socio-grams with the students for the following year, however this is not possible due to the inability to be together. Our goal is to build a community of learners in every classroom and to do this we strive to ensure that the best interests of students are central in all decisions about classroom placement. We take classroom placements very seriously and as professionals spend much time collaborating in making the best choices for our students. Some significant factors include:

- Student’s strengths and interests
- Work habits
- Class dynamics
- Student needs (e.g. need for support in learning English or academic areas)
- Relationships with peers
- Learning styles
- Number of boys and girls in the class
- Social skills
- Number of students in each grade
- Curricular needs

Although friendship are very important we know that this is not always the best for learning. There are many opportunities for children to spend time with friends - collaborating with grade alike groupings, recess and extra-curricular activities. Teachers know your child(ren) well and will consider social relationships in the decision...
**Schools Start Online School Supply Orders**

This year we will be offering the opportunity to order school supplies through a company called Schools Start. This is optional but might be a preferred option instead of school supply shopping in stores as the supplies get delivered directly to your door. If you are not interested in ordering through the company and want to buy your supplies locally, please go to our school web page and print out the lists. Attached to the newsletter is a letter giving more information. Mailing in deadline in June 17th but you can go online and order, or phone in your order as well. Simply go to the website info@schoolstart.ca and find our school. Or call 1-800-580-1890. All school supply lists and School Start Information is posted on the school website.

It has been a pleasure teaching at Cardinal Leger, short as it was. What a wonderful community! As many of you know, I had to go on leave to take care of a flaring autoimmune disease, and am thrilled to report that I am feeling better than I have in years! Thank you for all of the thoughts and prayers when I left, they were much appreciated. I asked the division to work part time next year to keep focusing on my health, so I will be returning to St. Gerard. While I am sad to leave my new friends at Cardinal Leger, I am excited to see some old ones again. I get to see my previous kinders as grade 2 students, how cool is that? Wishing you all health and happiness!
